

Burial Site Winter Decoration Service

We know that time and distance may make it difficult to beautify and care for a loved one's resting place, so let  InstaFloral help! Since 1996, thousands of satisfied customers have trusted  InstaFloral to beautify their loved ones' resting places, and year after year our customers praise us for our exceptional products and outstanding service.

 InstaFloral winter grave blankets, pillows and wreaths are handmade from freshly cut evergreen boughs decorated in seasonal colors. These distinctive arrangements will add beauty throughout the winter months, and their freshness and fragrance will capture the holiday spirit throughout the season.

Our Deluxe Evergreen Blankets and Deluxe Evergreen Pillows are available undecorated or adorned with traditional-colored pinecones, poinsettia decorations and a red bow.

Our Deluxe Evergreen Wreath is handmade using the freshest evergreens available. Approximately 24" in diameter and decorated with a bow, pinecones, and seasonal decorations, it will be prominently displayed on an easel at the gravesite.

Our new Deluxe Monument Saddle attaches to an upright monument. Approximately 24" wide, it is handcrafted with artificial greens and seasonal decorations.
